

## High ability or potential in Design Technology

Name of student \_\_\_\_\_ Tutor group \_\_\_\_\_ Teacher \_\_\_\_\_

Nominations on to the Design Technology Gifted list:

Students will be nominated by their Design Technology teacher towards the end of the summer term

Those students who are nominated would be expected to have ticked ten or more of the qualities below at 'yes' or 'developing'.

Teachers will judge relevant students against these criteria once a year

Teachers will use the criteria to identify those with potential as well as demonstrated ability.

Teachers can use any evidence they wish to demonstrate a quality.

	Quality	Yes	Developing	Not yet
	<b>Pupils who are gifted in Design Technology are likely to:</b>			
Q1	demonstrate high levels of understanding and application			
Q2	display high-quality making and precise practical skills			
Q3	have flashes of inspiration and highly original or innovative ideas			
Q4	demonstrate different ways of working or different approaches to issues			
Q5	be sensitive to aesthetic, social and cultural issues when designing and evaluating			
Q6	be capable of rigorous analysis and interpretation of products			
Q7	get frustrated when a teacher demands that they follow a rigid design-and-make process			
Q8	work comfortably in contexts beyond their own experience and empathise with users' and clients' needs and wants
